THINGS YOU OUGHT TO KNOW

It is very important that the correct size needle called for in the directions should be used—all needles or hooks are given in millimeter gauge.

We caution all knitters who work tightly to use a larger size needle, and all those who work loosely to use a smaller size needle, than the instructions call for.

Sig-Knit-Ring Yarn is just as easy to work with as any plain yarn, and much more fascinating, because you will find that the little rings will delight the senses of sight and touch the instant you start your garment, also the Sig-Knit-Ring Indian Yarn will fascinate you as you work two or three colors from the same ball.

There is no other yarn that will produce a warmer garment than Sig-Knit-Ring Yarn, when knitted with small needles, nor has there ever been any other yarn produced that will make a cooler garment than Sig-Knit-Ring Yarn when knitted on large needles.

Cord and Trimming—Take 2 strands of yarn and twist them, then double this strand and twist it again. Tie cord around crown to keep head size from stretching. Make a pom-pom of the same cord by forming loops and sewing them together. Place pom-pom on brim.

THINGS YOU OUGHT TO KNOW

Brushing Sig-Knit-Ring Yarn

Knit tightly on No. 5mm. needles to any desired width or length. Use the Sig-Knit-Ring Yarn Wool Brush with downward plucking or dabbing motion, then brush out straight all one way. Both sides of trimming can be brushed with equally good effect.

Sig-Knit-Ring Yarn is far superior to ordinary plain yarn for brushing, the extra length of yarn in the loops being brushed out gives a very full and fluffy effect.

The White brushed loops on colored ground, gives beautiful tints which cannot be produced with any other yarn.

Sig-Knit-Ring Yarn Wool Brushes for sale by all dealers.

Sig-Knit-Ring Yarn eliminates the necessity of making elaborate designs in garments. The little rings in the yarn produce the effects of patterns in themselves.

Sig-Knit-Ring Yarn saves time and material. Half the stitches and about one-third the length of straight yarn required for a given article.

Buy sufficient material to complete your garment. It is not always possible to guarantee a further supply that will exactly match any color previously purchased.

Directions for washing Sig-Knit-Ring Yarn:—Make a good lather, in luke-warm water, use Lux or FAB. Immerse the garment in this a few times, finally rinse in luke-warm water, squeeze and spread out on a flat surface to dry, after shaking the article freely; rebrush the brushed parts if any.

THINGS YOU OUGHT TO KNOW

Sig-Knit-Ring Yarn has many advantages over other yarns, some of which are:

In making up your garments, if our tints are used, you may knit or crochet the collar and cuffs—and leave same unbrushed—later it is possible for you to brush the collar and cuffs, thus changing the appearance of your garment entirely as you will have collar and cuffs showing white strongly with the tint delicately showing through it. The tint shows up stronger before the collar and cuffs are brushed.

The same scheme can be used with the solid colors of Sig-Knit-Ring Yarn, wherein you leave collar and cuffs unbrushed and later change to brushed collar and cuffs by simply brushing out the rings with the Sig-Knit-Ring Wool Brush.

This also applies to the many other articles that are made of Sig-Knit-Ring Yarn—such as Hats, Scarfs, Afghans, Baby Jackets, Caps, Slippers, etc.

With Sig-Knit-Ring Yarn you produce a garment giving the appearance of one having been made with a fancy stitch, though a plain stitch has been used.

You will have to see the different articles made up with Sig-Knit-Ring Yarn to appreciate what beautiful, practical things you can make. Also the soft, fluffy, beautiful effects you can obtain.

By brushing Sig-Knit-Ring Yarn you do not weaken your garment as the rings only brush out and the binder remains unbroken.

Our Sig-Knit-Ring Astrakhan and Indian Yarn can be knitted or crocheted with any size needle and the effects are beautiful.
